They say golf cart.
We say golf car.
Garia has created a golf car that is so different, so fundamentally sound in its performance and aesthetics that you will want to drive it as much off the golf course as on it. Inspired by cars and built with passion, the Garia will change the way you think and feel about driving.
LEISURE TIME IS LUXURY TIME

A zero-emission and virtually no-noise vehicle, the Garia lets you enjoy your surroundings while providing comfort, superior handling and stability.

Take your Garia to the golf course, country club, or out shopping. The possibilities are endless.
From headlight to tail light, every part of the Garia is designed to be an experience. With your comfort as our sole focus, we have put thought into every detail, and created a car that has everything you need. And more.
STORE AND GO
Fitted with storage space under the lockable front bonnet, as well as a utility box behind the seats, to ensure that there is always enough room for your belongings.

STAY PLUGGED IN
Power up with a 12 V power outlet for all your electronic devices.

LIMITLESS FEATURES

DESIGNED FOR YOU
Providing more width, leg, and headroom than other golf carts and leisure vehicles, the Garia has the largest cabin in its class. The spacious cabin and car-like driving position allow for optimum comfort while driving.

CHAMPAGNE BUCKET
This removable bucket is made of the same material and color as the seat, and comes with a protective insert.
AIR SCOOP

To channel fresh air into the cabin, an adjustable air scoop is mounted into the roof.

HEADLIGHTS

Our models feature lights including parking, low and high beam head lights, tail lights, brake lights and turn signals at the front and rear.

DASHBOARD

From the soft-touch dashboard you have access to controls for the windshield wipers, refrigerator, heated windshield and golf ball and tee holder.

DIRECTION SELECTOR

Conveniently located on the steering column, the direction selector is easy to reach and simple to operate.

ALUMINUM RIMS

Our rims are crafted from automotive quality aluminum, and are available in four variations.

REFRIGERATOR

Keep your beverages cool while underway with our refrigerator option integrated into the dashboard.

*Not standard on Golf model
HYDRAULIC BRAKING SYSTEM
All Garia models feature an advanced dual circuit brake system, with brakes on all four wheels with discs at the front and drums at the rear. The system also features an automatically engaging parking brake for your convenience.

SPORTS SEATS*
Designed with a dip in the seat back and bottom to prevent sliding when going around sharp turns and high-speed drives.

LITHIUM BATTERY*
The lithium battery is exclusively manufactured and developed for Garia vehicles. A lithium battery features less battery maintenance, a longer lifespan and a 5 year warranty.

SPORT STEERING WHEEL
The unique design of the steering wheel features an ergonomic grip that enhances steering control.

DOUBLE-WISHBONE SUSPENSION
Similar to the suspension found in sports cars, the double-wishbone front suspension ensures smooth handling, accurate steering, and superb stability.
HILL HOLD SYSTEM & DESCENT CONTROL
This function holds the Garia firmly in place when stopped or starting the vehicle on a slope. In case too little acceleration is applied when starting, the hill holder function will prevent the vehicle from rolling backwards.

Descent control features regenerative breaking when going downhill or coasting. This allows the battery to recharge, provides a longer range, and gives you full control over the vehicle, even when going down a steep hill.

ALUMINUM CHASSIS
The aluminum chassis is corrosion-resistant and made of automotive grade aluminum. Standard feature on all street legal models.

DIGITAL INSTRUMENT CLUSTER
All relevant driver information is located in one place. The digital instrument cluster is an information center for speed, distance, time, battery status, warning signals, and a resettable tripmeter.

BUILT-IN CHARGER
All Garia models feature a built-in charger, and use standard power outlets so you can charge wherever electricity flows.*Optional upgrade
The Garia comes in various models ranging from 2-seaters to 6-seaters, each fitted with luxury features so you can sit back and enjoy your ride.
The street legal Garia Via is the ideal luxury vehicle for golf, leisure and street use. Take the Garia Via from the golf course straight to your favorite shop or cafe. Street legal in the USA.

MAX SPEED

CATCH A BREEZE
The Golf’s fold-down windshield allows for a nice breeze while driving. Made of a quality, UV resistant material, so your vision remains clear.

UNDER COVER
Shaped with the utmost precision, the roof of the Golf car is designed with an improved water management system to keep you dry.

FEATURES
GARIA GOLF

A NEW GOLF DESIGN
Our golf model provides all the luxuries and comforts of our Monaco and Via models, with a few improvements to make your golfing experience even more comfortable.

ERGONOMIC GOLF BAG HOLDER
Positioned at a 45° angle, Garia golf bag holders give you easier access to your clubs, so you can get back in the game.
The Garia Courtesy is ideal for transporting larger groups, as it can hold up to 6 occupants at a time. Available in 6 or 4 seat models, the Garia Courtesy is sure to get you and your group where you need to go.

**MAX SPEED**
30 km/h / 19 mph

**RANGE**
40-64 km/25-40 miles

**OPTIONS**
4-seater, 6-seater, roadster
The Garia Courtesy elegantly integrates the additional rear seating into the design of the car, without compromising aesthetics or comfort.

For optimum comfort, the Courtesy has a footrest integrated beneath the second row seats.

Storage compartment under the rear seat provides additional space for belongings.

For maximum comfort, the Courtesy has a footrest integrated beneath the second row seat.

The same spacious cabin as is standard in all of our models can be found in the GariaCourtesy, with features such as a conveniently placed instrument cluster, cup holders, and 12 V charging port for electronic devices.

Additional cup holders, handles, and storage nets are within reach for second row passengers.

The Courtesy has a footrest integrated beneath the second row seat.

Storage compartment under the rear seat provides additional space for belongings.
